## Cold Shrink Shield Kit

Richards Cold Shrink Shield Kit provides an easy way to ground and seal metallic shielded cable when installing Richards premolded equipment including elbows, T-bodies, and splices. The kits can be used with Loadbreak and Deadbreak equipment at 600A for 15kV, 25kV, and 35 kV Voltage classes.

Each shield kit includes all components necessary for complete installation.  
This includes:

- Cold Shrink Seal Tube
- Sealing Mastic (3 pieces)
- Constant Force Spring
- Tinned Copper Braid

KIT NUMBER	CABLE INSULATION RANGE	BRAID SIZE
